- **Modular system**
- **Ergonomic**
- **Functional**
- **Fully certified**
- **Extended durability**
- **Easy installation**
- **Low logistic costs**
- **Low maintenance**
- **Excellent reliability**

Driessen designs and manufactures galleys that meet the highest possible standards in design, functionality, durability and weight. Our products are made of lightweight composite sandwich materials and can be pre-outfitted with an extensive range of components to meet customer requirements and specifications.

Throughout the engineering and production process, our focus is on quality and functionality, resulting in highly efficient and functional galleys that can be easily maintained to avoid malfunctions and costly downtime. Driessen stays ahead of competition by constant innovation and creative solutions for technical challenges.

Commercial airlines and aircraft manufacturers worldwide recognize the quality of Driessen galleys, which is why Driessen is currently the market leader in galleys for both Boeing and Airbus narrow body aircraft.
