

## Trolley Accessories

Driessen is 'your creative partner'; It is our goal to find the perfect solution to your requirements.

This has been our mission since we started in 1938, and resulted in Driessen's extensive product range. The trolley accessories can be ranked among the most customer-specific products.

Driessen developed a wide range of trolley accessories, including trolley tops, extension tables, side boxes, pull out tables, e-pay holders and racks . All these items

were made to meet customer-specified requirements for optimising their on-board service. The possibilities and options are indefinite. All accessories can be embossed and /or powdercoated to reflect the operator's housestyle.

By sharing your service concept with us, we will be able to make some suggestions on how this can be realised! We would like to be your creative partner.
